Business Card

Business card of the municipality "City of Ulyanovsk" Ulyanovsk - a city with a rich cultural and historical heritage. In recent years, the city is actively developing. Construction of new sports complexes, hotels, shopping and entertainment centers, acquire modern look palaces of culture, modernized library, reconstructed quays, boulevards, parks and squares, extended and thorough repair of the road. In the "card" provides information on the history and territorial area of the city, its scientific and educational, social, environmental, tourism potential, etc. A separate column is devoted to the project "Ulyanovsk - Aviation Capital of Russia."

Background

Ulyanovsk - a unique, geographically, culturally and economically the city with a rich history. The city was founded in 1648 as a fortress on the right bank of the Volga, called the crown (height 120 m), and the voivode Bogdan Okolnichy Matveyevich Khitrova, and Gregory Kunakova clerk to strengthen the "Sinbirskoy features." Before the end of the XVIII century, the city retained the name Simbirsk occurring on one of the versions of the Bulgar name Simbira Prince, who founded the town.

Simbirsk on the Volga River, below the modern Ulyanovsk.

Since 1780 the city became the center of Simbirsk governorship, and in 1796 - the center of the province. It starts with an active construction, increased turnover. At the beginning of the XIX century in the city opened a theater, a hospital, a gymnasium, a little later - a library, a monument, NM Karamzin. During these years, and built Holy Trinity Cathedral of St. Nicholas.

In 1898, in Simbirsk was built the railroad, in 1913 there was power, and in October 1916 was commissioned a major railway bridge over the River Volga. At the end of the XIX century in Simbirsk, there were 42 factories (the largest - pivomedovarenyy, distillery, voskosvechnoy, flour, vodka), 733 stalls, 526 craft schools. The city acted 29 Orthodox churches, 2 monasteries, Lutheran and Catholic churches, a mosque, a synagogue. Were open for men and women high school, military school, a seminary, many charities and institutions, laid water pipes and telephone lines.

In 1924 the city was renamed Ulyanovsk. In 1928 he entered the Middle Volga region in 1936 - in the Kuibyshev region. In 1943 the town became the center of the newly formed Ulyanovsk region.

In Simbirsk-Ulyanovsk linked the fate of many famous people:

Ivan Aleksandrovich Goncharov (1812-1891) - Russian writer, correspondent member of the Imperial Academy of Sciences of the category of Russian language and literature, the author of the novels "Precipice", "Oblomov", "Ordinary Story.

Nikolai Mikhailovich Karamzin (1766-1826) - Russian historian, writer, critic, journalist, and an honorary member of the St. Petersburg Academy of Sciences, the creator of "The History of the Russian state"

Alexander Fyodorovich Kerensky (1881-1970) - lawyer, party and state leaders of Russia, later a writer and publicist.

Dmitri Minaev (1835-1889) - poet and satirist, journalist, translator, critic.

Plastov Arkady Alexandrovich(1893-1972) - Soviet painter, People's Artist of USSR, laureate of Lenin and the Stalin Prize of the first degree.

Alexander Ivanovich Turgenev (1784-1846) - Russian statesman and historian. The brother of the Russian writer Nikolai Ivanovich Turgenev.

Vladimir Ilyich Ulyanov (Lenin) (1870-1924) - Russian and Soviet politician and statesman of world-scale, revolutionary, founder of the Russian Social Democratic Labour Party (Bolsheviks), one of the organizers and leaders of the October Revolution in Russia in 1917, Chairman of the Board People's Commissars (the government) of the RSFSR, the creator of the first in the history of the world socialist state.

Ilya Nikolayevich Ulyanov (1831-1886) - statesman, educator, an advocate of universal and equal education for all nationalities. His father, Vladimir Ilyich Lenin.

Nikolai Mikhailovich Yazikov (1803-1847) - Russian poet, a representative of the nearest environment of the poetic, AS Pushkin.

Ivan Yakovlevich Yakovlev (1848-1930) - educator, creator of the Chuvash literature and literary language.

Avgust Avgustovich Shode (1864-1918) - Russian architect, the main period of creativity associated with the Simbirsk.

In addition, in Simbirsk-Ulyanovsk lived and worked the Russian writers Dmitry Grigorovich and Apollo Corinth, poets Denis Davydov, Dmitry Gardeners, Dmitry Oznobishin, a historian and educator Dmitri Arkhangelsk, Aleksandr Lubischev entomologist, ornithologist Sergei Buturlin, conductor Edward Serov, architect Fedor Livchak, Decembrist Vasily Ivashov, etc.

Geographic location (географическое положение)

The city of Ulyanovsk - the administrative center of the Ulyanovsk region. Located in the heart of the European part of Russia on the Volga Upland, on the banks of the river Volga (Kuibyshev Reservoir) and Sviyaga, 893 km east of Moscow.

Ulyanovsk is a major road, river and rail junction connecting central and western regions of the country with the Urals and Siberia. There are two airports (one of them - international).

The work of river transport provides freight and passenger ports.

The total area of the city district - 622.46 km

Population on January 1, 2011 - 637.9 thousand people.

The climate is temperate continental, characterized by warm summers and moderately cold winters. The coldest month - January, the average temperature of -14 ° C, the warmest - July, average temperature +20,5 ° C. The annual rainfall on average 484 mm, maximum rainfall usually falls during the summer.

The region is located in the areas of steppe and deciduous forests. Growing season - 174 days.

Townsite

Ulyanovsk is situated on both banks of the Volga River and is divided into four regions: Zheleznodorozny, Zavolzhsy, Zaslviyazhsy, Leninsky.

The feature of the city is the presence of the second river - Sviyaga, which flows through the city along the Volga River in the opposite direction from south to north.

Leninsky region is situated between the rivers Volga and Sviyaga and is the oldest part of city. District center is Lenin Square in a building located on it of the regional government, museums, theaters, hotel "Sovetskaya", Philharmonic, etc. There is also a Lenin Memorial Centre. One area of business cards - Museum under the open sky «Rodina VI Lenin», which became a favorite place for walks and city dwellers and tourists.

In the southern part of the watershed area is Zheleznodorozhny region, which began settle in the early XX century in connection with the construction of railways which connected with

the Simbirsk Kazan and Moscow by the central arteries. The area is an important industrial center of the city. In 1968, on its territory - on the avenue Guy - there was leather-shoe factory, and later - Knitting Factory "Kim." A decade later, was built confectionery «Volzhanka», now part of the company's «sweet» The southern edge of the area referred to in the memory of Kindyakovkoy Kindyakov family, who founded the village Vinnovku. Kindyakovy belonged to the genus servicemen nobles, known since the 16th century. It is known that the idea of the novel "break" came from IA Goncharov, after visiting the house in Kindyakovyh in Vinnovka. The house, unfortunately, has not survived, but the name Kindyakov entrenched in the southern Ulyanovsk region.

On the left area Sviyaga River – Zaslavzhsky region consisting of the near and far (with respect to the center) Zaslavzhya. District in its present form began to be built with the erection of the building in 1941, the Ulyanovsk Automobile Plant. In 1951 started the construction of Radiolampovogo plant, and a decade later - the building of the Ulyanovsk bus station, which was opened in the spring of 1971.

Zaslavzhsky region begins with the Moscow highway, which crosses the whole of its territory. On it in 1951 was built the Ulyanovsk plant heavy and unique machines, next to whom in the next few years built up a new neighborhood. In 1966 at the Moscow Highway completed construction of the Gidroaparat plant. In addition, the Ulyanovsk-Central airport is located in Zaslavzhsky region.

On the left bank of the Volga River is Zavolzhsky region, which consists of three parts: the Nizhnaya Terrassa, Verkhnya Terrace and the Novi Gorod..

The story begins with the district Zavolzhsky a third Simbirsk ammunition factory (now the territory of OAO «Ulyanovsk Cartridge Plant») in 1916. Structure-now the youngest district - the New Town is the largest Russian aircraft building plant OAO "Aviastar-SP." Zavolzhsky and Leninsky districts are connected by rail and road, "Imperial," a new bridge and road bridge, «Presidential».

Population

On 1/1/2011 resident population totaled 637.9 thousand.

The age structure of the urban population:

- to able-bodied age is 64.9% of residents of the city;
- under the age of working age - 13.6%;
- older - 21.5%.

In demography since 2005 a steady trend - an increase in fertility and mortality reduction

Average monthly nominal wages in the large and medium-sized enterprises of the city amounted to 16 791.9 rubles., Which is 11.1% higher than in January-May 2010

Officially registered unemployment rate in the July 1, 2011 - 1% (by June 1, 2011 - 1.14%) versus 1.73% on July 1, 2010.

Transport Infrastructure (Транспортная инфраструктура)

City of Ulyanovsk is a major transport hub, lying at the crossroads of air, rail and road communications of all areas of Russia, as well as international air lines connecting the Volga region to Europe, Central Asia, the Middle East and China.

The city has two major airports - "Ulyanovsk-Central" and the international airport

"Ulyanovsk-East", equipped with modern radio-electronic and navigation equipment.

International airport "Ulyanovsk-East" has a unique runway length 5100 m and 105 m wide, capable of making all types of aircraft without limits. Air transportation is carried out five flights, the bulk transport company operates the "Airline" Volga-Dnepr "and" Airline "flight."

Airline "Volga-Dnepr" for 20 years successfully representing Russian cargo civil aviation in the international market, being the world leader in the transportation of super-heavy and

oversize cargo. The basis of the business, "Volga-Dnepr" make air charter the unique ramp AN-124-100 "Ruslan" and IL-76. "Volga-Dnepr" is initiated several major projects that are relevant for the development of Russian transport system. The main program is the modernization of the IL-76TD, and a draft resume production of An-124 "Ruslan". Airlines "Polet" is one of three world leaders on the transport of oversize and outsize cargo, is a general carrier of the Federal Space Agency, carries out passenger transportation in the cities of Russia, CIS countries, Europe and Asia.

The city is a major river port capable of receiving vessels of "river - sea". Navigation period - 200 days.

Water transport in the city shall OAO "Ulyanovsk river port" and CJSC "Ulyanovsk shipping company."

Rail transport carries Ulyanovsk branch of the Kuibyshev Railway - a branch of JSC "Russian Railways".

Ulyanovsk to fit: Federal Highway M5 "Ural", roads
R228 "Ulyanovsk - Syzran - Saratov - Volgograd"
A151 "Tsvilsk - Ulyanovsk - Syzran"
R241 "Kazan - Buinsk - Ulyanovsk"
P178, "Saransk - Ulyanovsk - Dimitrovgrad - Samara."

Ulyanovsk is strategically important transportation hub between the European and Asian parts of Russia. The city has two road bridges and one rail - across the river Volga. November 24, 2009 held an official opening ceremony of the first stage of a new bridge across the Volga, whose purpose is to:

Creating a new road route directions in the international transport corridor "Transsiberian," which gives a reduction in transport costs in delivering goods and passengers by switching to a substantial part of the motor currents.

Improvement of transport service areas of the Ulyanovsk region and the Middle Volga region unloading part of the existing road bridge.

Significant reduction of negative impacts on the environment.

At the time of the first phase of construction of the Ulyanovsk bridge is the longest bridge in Russia and one of the longest in Europe.

The main passenger transport in the city are made by bus, by bus, tram, trolleybus, as well as numerous service taxi.

Ecology

The Ulyanovsk city has a unique landscape potential. One-third of the urban area occupies the Kuibyshev Reservoir. Also in Ulyanovsk rivers Sviyaga and Herring, building a unique landscape of the city. In Ulyanovsk, you can see the unique natural phenomenon: the two rivers - the Volga and Sviyaga - carry their water in opposite directions. In the Northern Hemisphere due to rotation of the earth all the rivers tempted his right side. Volga flows from north to south, and Sviyaga - from south to north, so they wash the shore towards each other. Approximately 4 mm in rivers converge. Since the minimum distance between the rivers in the city - 2 miles, then they can "meet" a few million years.

Green Fund is 17% of the urban area. At the present time in the urban flora recorded 1271 species of vascular plants from 574 genera and 135 families. Of these, 67 species are extinct and 53 are classified as rare and endangered plants.

Ulyanovsk is one of the leaders in Russia in the number and total area of protected natural areas. In the urban landscape basis of the balance land is about 30%, making it an environmentally sustainable city of Ulyanovsk. It is in Ulyanovsk was first introduced a new

form of territorial nature protection - ecological park. Developed by experts Ulyanovsk system information signs has spread far beyond the region.

The natural heritage of the city is represented by 22 protected areas: nine natural monuments, parks and twelve Sviazhsky eco-recreational zone (more on these areas can be found in the section "Tourism" Passport). In terms of biodiversity conservation the city limits of these areas are not equal, but as an "ecological mosaic spots" (preserved in the natural areas within the city limits of nature), they covered the full range of natural landscapes.

Air quality is an important factor in determining the state of wildlife and human health.

Water, earth, air, minerals determine the quality of our lives. This is the key to social policy. What kind of environment - is the quality of the life.

Environmental monitoring is conducted in the city of Ulyanovsk on the four stationary posts of public service observations at intervals for six days a week, three times a day.

According to the observations in the Ulyanovsk city maintained low levels of air pollution.

Radiation condition of the territory of Ulyanovsk also remained stable and within the natural background radiation.

Travel Industry

Ulyanovsk has a high potential for effective development of the tourism industry. The prevailing image of tourism in the past, "Homeland of VI Lenin," is supplemented by new today: "The Russian provincial town of the XIX century", "Oblomov's Homeland," "architectural open-air museum", "Ulyanovsk - the birthplace of Kolobok," etc.

Favors the development of tourism convenient geographical location associated with other historical and cultural monuments and cities directly by road, water and rail transportation. There are opportunities for the development of historical, cultural, environmental, sports, health tourism.

The range of tourist offer of Ulyanovsk is based primarily on historical and architectural environment of the city, the monuments of architecture, engineering, arts, history, archeology and culture.

The Ulyanovsk city can be named the city of museums. Located in the city museum named after IA Goncharov (including affiliates - History and Literature Museum named after Ivan Goncharov, a literary museum "House of Language"), art museum, a museum, "Simbirsk photography", "Urban Planning and Architecture Simbirsk-Ulyanovsk", "Simbirsk defense line", a unique a kind of civil aviation history museum, located in the open air on the area of 18 hectares, and many others. Since 1941, operates historical and cultural center of the VI Ulyanov.

The main attraction of the city are its architectural monuments of the late XIX - early XX centuries, such as Goncharova House, House of Language, "Swallow's Nest" - regional philharmonic society, building regional scientific library and the Agricultural Academy and many others, as well as sculptures and historical monuments, as monument, NM Karamzin built in 1845, and many modern and open in recent years.

History of many Ulyanovsk museums is rooted in the distant past, when Simbirsk scientists and collectors gathered and presented native city the great cultural and scientific heritage.

In 2005 two Ulyanovsk regional museum - local history and art - celebrated its anniversary - 110 years since its foundation. These museums are the most loved and popular among residents and visitors alike. Here, in the collection of rare exhibits, shows the entire history of the Simbirsk region - from its founding to the present day.

State historical and memorial reserve «Rodina Lenina», numbering 15 in his collection of museums in 2004 was only 20 years old, but he is the pride and main attraction of

Ulyanovsk. Take a walk on the "open-air museum", for a moment go back to the XIX century Simbirsk seek not only to residents of the city, but also many tourists.

Eco-tourism

Eco-tourism - a promising new direction for the tourism industry. The natural heritage of the city is represented by 22 protected areas: nine natural monuments, parks and twelve Sviazhsky ekologorekreatsionnoy zone. Among them are such famous places as the "Black Lake", "Friendship Park" Park «Vinnovskaya Rocha», «Park Pobedy», Park «Molodeznyi», Ulyanovsk arboretum, etc..

Ecopark «Tchernoe ozero» - a natural complex area of 126 hectares - was established in 1993. Protected natural landscape includes a wide section of the left bank of river valleys, the waters of the river Sviyaga with islands and oxbow lakes. Within the park recorded about 450 species of vascular plants, representing almost a third of the flora of the Ulyanovsk region, and over 40% of the modern flora of Ulyanovsk and its environs.

Park «Vinnovskaya Rocha» - one of the oldest parks in the city, approved by a natural monument in 1961. The park is 122 hectares. The grove is famous for its centuries-old oaks, deep shady ravines, springs. Here is the famous cliff, described in the novel, IA Goncharov's «Obriv». The main attraction of the park - white stone gazebo, rotunda memorial Goncharov, established in 1912 in honor of the 100th anniversary of the writer.

Ulyanovsk arboretum founded in 1893 on an area of 45 hectares. On the territory of the park there are about 300 species of valuable trees and shrubs. The main landing made on a geographical basis: Flora of North America, the Far East, Japan and China, Central Asia, Western and Eastern Siberia and Europe

Park «Drujby Narodov» was created in 1970 for the 100th anniversary of the birth of VI Lenin. The park grows Bole 80 species of trees and shrubs. On the territory there are a variety of small architecture and sculpture.

Boulevard and Square «Noviy Venec» - a favorite vacation spot of townspeople and visitors alike - was defeated after a fire in 1864. On the boulevard, situated on the crest of the mountain Simbirsk with a great view of the Volga from the islands and the trans-Volga given for many kilometers.

Education

Ulyanovsk Russian Aviation-related capital

"Ulyanovsk - Aviation Capital of Russia." Today Ulyanovsk is the largest center of Russian civil aviation, scientific and educational center. This is where the air is created cluster.

Aviaklastar - a unique education. It combines Aircraft manufacturing, component suppliers, design office, two airports, a number of airlines, service and logistics services, and educational institutions that train specialists for the full range of aviation. Aviation is one of a cluster of high-tech sectors of the Ulyanovsk region.

The structure of the aviation cluster

The production potential of

The most significant industrial facility is the company "Aviastar-SP", which became the core of the cluster formed by air.

Production facilities "Aviastar-SP":

The expanded area of all buildings, 1.4 million m².

The area of shops, 680 thousand m².

The volume of industrial buildings, 15 million m³.

List number of 10 thousand people.

Equipment-5.2 thousand units.

"Aviastar-SP" produces:

passenger aircraft Tu-204-100, Tu-204-300, TU-204-120, Tu-204-100E;
Cargo-Tu-204C, 204-120C, Tu-204SE, 204-120SE.

Production and maintenance of aircraft provides the leading Russian companies - members of aviation cluster:

JSC "UTES" aerometryc produces equipment for measuring altitude and speed of flight parameters, the third-generation EBM altimeters, air data system, stars and sun tracker, information systems air signals, security system aircraft checkout equipment to them, and much more.

JSC "UKBP" is the leading enterprise of Russia avionics, whose work is based on the development, manufacture and implementation of:

Systems, electronic display and alarm indicators and a number of multi-functional systems for ground vehicles;

* Integrated systems of perception, measurement and calculation of air data and flight restrictions in their part of the receivers and sensors aerometricheskih primary data;

* Systems and components cockpit lighting and lamp signaling, including those adapted for the work crew with night vision goggles;

* Ground-based automated monitoring and diagnostic equipment on board.

On the basis of joint-stock companies "Rock", "Ulyanovsk Instrument Design Bureau" and "Aviapribor-Holding" is created scientific-production association "Aviapribor-Simbirsk."

This allowed to proceed to the development and mass production of electronic display, laser gyroscopes, accelerometers, etc.

JSC "Aerocomposit" produces components and assembly of wing center section and tail made of composite materials for aircraft SSJ-100 and MC-21.

LLC "Volga-Dnepr Technics Ulyanovsk" - the organization of maintenance of aircraft of the Russian and foreign production.

airports

International airport "Ulyanovsk-East":

Unique runway length of 5100 m and 105 m wide, capable of taking all types of aircraft without limits distance to the Federal Highway - 1.2 miles

distance to the river port of cargo - 15 miles

railroad tracks at the airport

port special economic zone

Airport "Ulyanovsk-Central":

runway is 3286m long and 60m wide

distance to the center of the city of Ulyanovsk - 17km

Ulyanovsk - Russia's largest scientific and educational aviation center:

22-23 April 2011 in Ulyanovsk, the first International Air Transport Forum, which has become the business platform at the federal level to discuss key issues in the formation of strategy and tactics of air transport - the most important component of the transport industry in Russia.

In the first International Air Transport Forum was attended by over 500 delegates representing the professional aviation community in Russia, and twelve foreign countries.

Active participation in the forum attended by representatives of the United Aircraft Corporation.

The Forum supported by the Ministry of Transport and Ministry of Industry and Trade of the Russian Federation. MATTHEW, 2011, recognized as one of the biggest events of the year in the field of aviation, has allowed to establish contacts with many stakeholders to join efforts to develop the aviation industry.

The development of the aviation industry - is, first of all, support the competitiveness of the economy, and Russia, and the region. The potential of Ulyanovsk, which is available to two airports, aircraft manufacturing plant, the largest training center for pilots who can rightly bear the title of the aviation capital of the country. First, here are sufficiently developed all kinds of transportation routes: the intersection of the seven federal highways, access to river transfers and direct transits to Europe. Secondly, there are opportunities to grow turnover

Ulyanovsk airports. Third, the port special economic zone created in the region, providing excellent conditions for investors.

3. Growth points

Growth points

Openness - one of the most important factors of investment attractiveness of the city. Any investor requires holistic and comprehensive information, which contains everything needed to make the right decision.

The column " Growth Points" provides information on priority areas of the city, its competitive advantages, investment proposals.

Competitive advantages (Конкурентные преимущества)

Ulyanovsk has significant competitive advantages. These factors include:

- a favorable geographical position

Ulyanovsk is located in the center of the European part of Russia on the Volga Upland, on the banks of the river Volga (Kuibyshev Reservoir) and Sviyaga, 893 km east of Moscow;

- a strong and diversified industrial potential, availability of large industrial enterprises that produce unique products

The number of registered entities in industries (mining, manufacturing, production and distribution of electricity, gas and water) on January 1, 2011 amounted to 1999 units, including 443 large and medium industrial enterprises;

- developed transport network, causing the possibility of further development of the transport hub

Ulyanovsk is a major transport, river and rail junction connecting central and western regions of the country with the Urals and Siberia. There are two airports, one international. The work of river transport provides freight and passenger ports;

- availability of human resources

Developed educational system, which allows to prepare qualified personnel for various sectors of the economy;

- a high scientific potential of the city, allowing to carry out scientific research as applied and academic nature

Four research institutes, 10 universities, including 5 public and 3 private, 2 branches of state universities, 28 specialized secondary schools, including the branches;

- extensive foreign economic relations

Ulyanovsk is working closely with Germany, the USA, France, China, Vietnam, Czech Republic;

4. Rules

One of the important areas of the city hall of Ulyanovsk is attracting investment to the city's economy.

Accordingly, a high priority - is to create a business environment, comfortable for attracting investment.

Our strategic approach is: "For every investor Ulyanovsk should be clear and open area."

The heading "Rules" - that is, information on the measures of state and municipal support of investment activities at the territory of the municipality " Ulyanovsk City."

Municipal support of investment activity

(Муниципальная поддержка инвестиционной деятельности)

In order to stimulate investment activity and attraction of investors' funds for the development of economic and social development of the city, creating new jobs by the City of municipal support of investment activity, which includes:

- Support for investors in the selection of production areas and land

Maintained and regularly updated register of vacant production areas and land that may be proposed for implementation of various investment projects in the areas depending on the characteristics and needs of the investor.

- Elimination of administrative barriers

Provides more control of transmission and processing of documents at all stages of investment projects.

- The solution of problematic issues in the implementation of investment projects

Assists investors in their interactions with external organizations.

- To provide investors with information, methodological and advisory assistance

Informational materials about the investment areas, ongoing activities, updating the regulatory framework and other information posted on the City Hall. Investors can ask any questions by phone or by electronic means. In addition, information services through the media.

- Provide incentives for the payment of land tax

The projects, which in due course given the status of priority investment projects of the municipal entity "Ulyanovsk", shall be exempt from taxation.

Municipal support is governed by the Regulation on the support of investment activity on the territory of the municipality "City of Ulyanovsk", approved by the Mayor of the city of Ulyanovsk 03.03.2010 № 1201 as amended.

To increase the investment attractiveness of the city and ensure the implementation of investment projects in the city created the City Board of Investment under the Head of the city of Ulyanovsk, whose tasks include the development of the main directions of investment policy, creating a positive investment image, improving the regulatory framework in investment, the consideration of investment projects, assigning project priority status of the investment project.

To solve the current problems in the implementation of investment projects, the Commission is working on the investment activities of the city of Ulyanovsk city hall. The committee shall review and rapid response to the evolving situation on the implementation on the territory of investment projects, investors considering proposals for the selection and provision of land for non-residential investment projects, is developing regulations on investment.

For each project included in the list of investment projects of the city, secured the curator from the staff of the Office of investment, innovation and public-municipal partnership Municipality of Ulyanovsk. Supervisors of the monitored projects, quickly solve problems that arise when projects are carried out site visits to the implementation of investment projects of Ulyanovsk city in order to monitor the status of the project, meetings with the project proponent.

Priority investment projects for the municipality " Ulyanovsk City" fixed supervisors from among the Vice Mayor of Ulyanovsk and heads of departments under the mayor's office of the investment project profile.

To facilitate the implementation of complex investment projects and major industrial areas created with the presence of the necessary conditions for their activities, including the creation of physical infrastructure - industrial zone "Volga" and the special economic zone of port type. The City assisted in the creation of physical infrastructure of data zones and selection of personnel for the residents.

- Regulations on the support of investment activity on the territory of the municipality " Ulyanovsk City ", approved by the Mayor of the city of Ulyanovsk 03.03.2010 № 1201 (95 KB)

State support actions of investment activity

In order to support the development and investment activities in the territory of the Ulyanovsk region, the Law № 19 of 15.03.2005 ZO, "On the development of investment activity on the territory of the Ulyanovsk region." This law provides for the following measures of state support:

Tax exemptions

- Reduce income tax rate by 4.5% over 8 years.
- Exemption from property tax for 8 years.
- Exemption from land tax for 8 years.
- Reduced rental rates for land during the construction period to 0.75% of the cadastral value of land.
- Exemption from vehicle tax for 8 years.

Subsidies

The budget shall be reimbursed the cost of the Ulyanovsk region:

- The redemption of the land.
- The construction of engineering networks.
- The fee for the connection and grid connection to the network engineering support.
- The training of personnel.

The budget of the Ulyanovsk region for 8 years annually subsidized the cost of paying the following taxes:

- Corporate income tax (to the extent payable to the regional budget - 13.5%, taking into account existing benefits).
- Personal income tax (to the extent payable to the regional budget - 6.5%).

Investment activities of the Government of the Ulyanovsk region:

- The progressive regulatory framework in investment
- The public authority of the Governor - Board of Investment
- The authorized agency for investment promotion and support of investment projects, acting as a "one-stop shop" for investors - "Ulyanovsk Region Development Corporation" OJSC
- Securing the curators - the members of the Regional Government for the investment projects of regional scale
- The system of operational control of investment projects at the Governor's
- Areas with a prepared infrastructure for business
